Pradip Dey	How we together can make an impact for healthy soil	0
anonymous	Are policy makers aware of soil resources are important?	0
Pradip Dey	Could we come out with a document on responsible soil policy?	0
Pradip Dey	Is there a way to include soil issue with lifestyle?	0
Pradip Dey	Functional food components and soil health - how best we can raise the issue to take general public on board?	0
Pradip Dey	We are what we eat and what we eat is what plant takes up from soil - how best we can put this in policy?	0
Pradip Dey	What are the ways of mainstreaming soil-human-animal health?	0
Pradip Dey	Farmers' aspiration management is a way of of putting forward the soil health issue.	0
Pradip Dey	When we are tired we search for tea. But even our tea is tired of poor soil health - can't we do anything?	0
Ishan Agrawal	Principles of Commons applicable??	0
Pradip Dey	How we together can make an impact for healthy soil?	1
Usharani	When earthworms are regenerated you have unpaid relentless workers for soils	1
Klein Kimme	Let us RESPECT soil!	1

	Random reports on soil status to be published to draw the attention of society.	
Usharani	This will help in sensitization	1
anonymous	The term soil is often not mentioned and forgotten. Let's drum up support for it in whatever form for the world to recognize its importance to life	1
Hailu Araya	Land and soil are beyond food and production	1
Ishan Agrawal	Soil as Commons??	1
anonymous	Soil is life	
anonymous	Let's not kill	2
Usharani	Children should be educated on soil microbes	2
anonymous	Effets des pesticides chimiques que nous utilisons sur la santé de la terre.	2
anonymous	Soil , irrespective of ownership, is common resource, a public good.how can Policy framework be adapted to address this aspect for SLM?	2
anonymous	Should our contributions not talk to issues that address the effect of different human actions on soils such as farming mechanism on soil degradation ?	2
anonymous	To bring soil to the front of many important platforms, we need 1 to 3 comprehensive indicators that show the state of soil health	2
Ishan Agrawal	Organic farming calls for soil Commons..	2
Sergio Sauer - UnB Brazil	How about Agroecology? Would it be a way out for land degradation and soil waste?	3
Hailu Araya	Nutrition starts from the SOIL	4
anonymous	Soil / land ... Common public good or not? Access to Best land / soil as competing resource between all sectors is an issue?	6

Pradip Dey	How we together can make an impact for healthy soil?	7
Stop Land Corruption	Land corruption perpetuates poverty #stoplandcorruption #SDG1 #SDG16	16
anonymous	Policies of today need to feature a component of intergenerational justice. Why should the youth of today need to tackle problems created today?!	0
Nkiruka Nnaemego - YL	Do Youth deserve to receive Land as a Gift or an Incentive to facilitate their involvement in SLM initiatives?	0
Klein Kimme	A wise man said: We talk a lot about saving our soils and land for our children. Perhaps we should save our soils and land FROM our children	0
Conrad B.	Lack of formal employment opportunities in the agriculture sector drives the youth away to other "high employment" sectors.	0
Nkiruka Nnaemego - YL	YL: Most stakeholders talk about 'Youth Engagement'. Who do they really engage with, at what level? How does it impact on youth employment and entrepreneurship?	1
YOD	La jeunesse comme fer de lance de la GdT.	1
Srinivasa Srigiri	@Patrick, Key to reverse BAU and promote SLM is to change lifestyles of youth of the world from conspicuous consumption to cautious consumption.	1
Nkiruka Nnaemego - YL	YL: Most stakeholders talk about 'Youth Engagement'. Who do they really engage with, at what level? How does it impact on youth employment and entrepreneurship?	2
Haggai Oduori Nkiruka	Considering the low return on investment in agriculture visa vis services and industry, will youth choose agriculture first?	2
Nnaemego - YL	Do Youth deserve to receive Land as a Gift or an Incentive to facilitate their involvement in SLM initiatives?	3
Matheus_Global Soil Week	Do we need youth-specific policies? Or do we just need better policies at all?	3
anonymous	IT + land = youth	3

Nkiruka Nnaemego - YL	How do we ensure that youth are actively integrated into current and future policies, plans and programmes on SLM across the globe?	4
anonymous	Millions of Indian young people have no future in agriculture! Better to accept this soon!	4
Conrad B.	Lack of formal employment opportunities in the agriculture sector drives the youth away to other "high employment" sectors.	4
Srinivasa Srigiri	Vocational training systems of countries should focus on developing capacities of youth in agri-food processing and marketing.	8
anonymous	I think we need to 'moderize' agriculture to make it attractive for the youth.	9
Patrick	What is the role of youth in the "Global North" ?They're here today too and also need to be involved in preventing "business as usual" and further degradation!	9
Jonas	Someone before suggested to "modernize" agriculture to make it attractive to you. What do YOU understand from this term? Modernization	10
Nkiruka Nnaemego - YL	How do we ensure that youth are actively integrated into current and future policies, plans and programmes on SLM across the globe?	16
Awo Sourou Malikiyou	Est-il possible de nous mettre à disposition déjà demain avant la clôture la version complète des différents résultats issus des groupes de travail ?	0
anonymous	Wish we could all sit in one room rather than typing online	1
anonymous	Are we still at the Global SOIL Week?	1
KA	Reversing the rise in state violations of HR and access to land require a shifting balances of power. How do these guidelines achieve that?	1
anonymous	As researchets, how do we 'combine policies' legislated by a sovereign nation. i think some of our suggestions are wish-lists!	1
anonymous	We need to DEBATE!!	1

anonymous	Enough speakers --- lets debate on how to move forward!!	1
anonymous	Keep the messages short and do not add all the details!	1
anonymous	Message one is too ambiguous. I don't think it is a good representation on the outputs of workshop 2. Could it be made sharper?	1
anonymous	Can we focus less on reconfirming the obvious amongst ourselves?	2
KA	"Be concrete and be bold" -- that's a statement one could consider while fine-tuning / finalizing the messages of this event.	2
Alexander Mueller	Great to see the commitment of our partners from African Countries! The African Soil Seminar needs a follow-up.	3
anonymous	Thank you to gov. representatives for their support! Merci aux représentants gouv. pour leur support! Gracias a los representantes del gobierno para su apoyo!	3
anonymous	Why so many lectures? What about more discussion!? All participants in this room should be given more opportunity to have equally-weighted voices!	3
anonymous	Why is the term soil only visible in point 5?	4
Matheus_Glob al Soil Week	How do land rights link with the topics of the two other workshops? (SLM and Land protection)?	12
Marion	Can we still talk face to face?	13
Conrad B.	How do we ensure that policies get off desks and become a lived reality for government officials and the people?	0
Barron Orr, UNCCD SPI	How can we encourage governments to create the enabling environment (e.g. policies, market mechanisms) necessary for SLM farmers to succeed?	0
Conrad B.	Being a critical sector for developing economies, there is need for capital (especially human) by governments ...	0

anonymous	Use, control and governance	0
anonymous	Is that possible to convince the policy makers in the High Level Political Forum without the presence of the actors (farmers)?	0
Inviolater		
Lusweti	To encourage people to practice "organic farming" we should consider introducing the commercial or business angle to this!	0
Luca Miggiano (Oxfam)	Can we imagine a group of governments at HLPF to act as "friends of land" and bring key messages to HLPF?	1
anonymous	How can we link with the "Friends of Land" group that already exists and champions already identified?!	1
	from the reporting at the CFS and the work done by FAO and others, it seems that most governments embrace the VGGTs.	
anonymous	Let's recognize the space that exists!	1
Pradip Dey	Can we link land abuse with legal action?	1
Joe	The governments and the civil society need to talk with each other and stop talking at each other. Why aint we implementing the already existing policies.	1
Tilahun Amede	There is a strong thematic group of UNFCCC, Landscape Restoration Group, which has a leverage to influence policy at higher scales. How do we align with them?	2
Srinivasa Srigiri	SLM implementation requires different kinds of capacities at different levels which depends on the needs and aspirations of communities. Any best strategies?	2
Johns Muleso Kharika	Update on the "Friends of DLDD" in New York: The group of countries is alive and active, co-chaired by Iceland & Namiba. 23 countries are members.	2
Alex	How about referring to the VGSSM (voluntary guidelines on sustainable soil management) in the key messages?	2
Conrad B. Alexander Mueller	How do we ensure that policies get off desks and become a lived reality for government officials and the people?	3
	Do we need strong shadow reporting from CSO for an alternative reporting on the implementation of the SDGs ?	3

Jes	Is not institution building the pivotal lever for soil restoration? #sdg16	3
Jes	Qualitative reporting as a step until quantitative Land data becomes available?	4
Conrad B.	Have we thought about what to do post-HLPF?	4
anonymous	How to organize cooperation between human rights organizations and institutions working on land rights?	4
Jeremy Ferguson	Will any action towards SLM be taken as long as the costs of negative external effects are NOT internalised? - and unsustainable practices thus still rewarded?	4
Steffen Schweizer YL	Join forces! Soil and oceans! Agrochemistry and NGOs! Men and women! We need change, and we need it fast!	4
anonymous	Translating soil research into actions... how this does could implemented in practice? . Transdisciplinary research is a key entry point	4
Jes	How would a coherent reporting on #land #governance look like?	7
anonymous	How to enable CSO to provide info and data on land rights to national and global processes?	7
Jes	Monitoring investments and / or monitoring land governance?	7
Luca Miggiano (Oxfam)	Can we support governments in the room and others to create at HLPF / New York a "friends of land" group to bring forward our messages?	17
anonymous	Pourquoi vous "oubliez" l'ODD 15 et l'Objectif 3 qui met l'accent sur la GDT?	0
anonymous	How can we recognize and link to existing engagement by the LAND sector on the SDGs? Much is already being done on what is being proposed.	0
anonymous	Les ODD, en quoi les gouvernements peuvent y trouver leurs intérêts tant les intérêts du peuple passe au second plan	1

anonymous	When do we start to challenge things like SDGs? Do we really agree with them, their formulation, targets? If we were given other 'list' we would have bought in	1
Andreas	What priorities do we set in SDG monitoring given limited resources and capacities?	2
anonymous	We need to recognize and link to other processes leading the engagement on land governance and the SDGs	2
Johns Muleso Kharika	Correction: "The tragedy of the commons": What should be done to break this retrogressive vicious cycle to achieve the SDGs?	2
PatNyaundi	Diversity is what we have in common. Case for disaggregated data country plan for sdg implementation	2
anonymous	How can we protect the land rights of urban poor. They are often amongst the most vulnerable in most countries. Need to build synergies with SDG 11	3
Marion	The land indicator is under SDG1, but equal access to land is a sub-goal of SDG2. Land is for food first!	3
Christian Schneider YL	How can we address potential contradictions between SDGs? for example 2.b and support for small and young farmers?	3
Haren - Both ENDS	Excellent, let's add Trade & Investment to message 1: '... and guarantee that trade & investment policies contribute to the implementation of all SDGs'	4
Julian Oram	How can we rally political support for the inclusion of land rights as a cross-cutting theme within the Voluntary National Reviews of the SDGs?	14
Mitiku Haile	Who is responsible for the ethical and security considerations for open data sharing if it compromises data sources?	0
Pradip Dey	How we can dovetail soil biological and soil physical health with soil chemical health? What may be the minimum data set required?	1
anonymous	For the open data sharing it is important to involve inter-governmental organizations at regional and/international support for the policy support!!!	2
Hailu Araya	The right issue of sharing data (ODA) should start from information sharing to smallholder farmers and their farmers ... international link is secondary.	2

Mitiku Haile	Whose data is to be openly accessed and to be shared?Who will share the cost of collecting and compiling the data?	2
anonymous	Do you think we will be successful for Open Data Access without securing its advantage for the source countries, organizations, individuals, etc?	4
Conrad B. Ivonne Lobos Alva	Indigenous knowledge/ food culture of local population needs to be incorporated in SLM practices	0
anonymous	Are Member States reporting on how they include vulnerable populations in SDG review? How they address accountability?	2
anonymous	Was very nice to hear someone bring up the needs and rights of indigenous peoples/First Nations ! They cannot be "left behind" by such messages and processes.	5
William Onura	On message 4, there is need to have a clear definition of vulnerable people. It varies from country to country and from institution to institution.	9
Haren - Both ENDS	Let's give names to 'vulnerable people' in message 5: 'women, indigenous people, pastoralists, fisherfolk, forest people & small-scale farmers'	16
Steffen Schweizer YL	Can we reach the SDGs faster if we include the big agricultural corporations? If yes, how?	0
Jes	Large agrochemical companies the only ones on the ground? Like really? #omg	0
anonymous	Who is corrupting the land? Multinationals are accountable for corruption perpetuated in the developing countries	1
Haren - Both ENDS	Did you discuss influence of agrochemical companies in SLM policy development?	1
Steffen Schweizer YL	Let's not paint a black and white pictures when speaking about the inclusion of agrochemical companies.	1
Lien De Brouckere, RRI	Great to hear from Chantal to involve private sector! Companies are diverse. RRI engages leading companies in the Interlaken Group to respect land rights.	2
Patrick	Solutions need to focus on the culprits of destruction! Greedy corporations need to be held accountable for their actions (and inaction)!	3

Conrad B.	The language of aggressive commercial advertising of agro-chemical products sometimes demeans indigenous farming methods. regulation!	8
Haren - Both ENDS	Yes, let's talk about the ELEPHANT in the room: the impact of large corporations on land & soil & their lobby powers & their ways of dodging responsibility	12
Haren - Both ENDS	Did you discuss the lobby power of large agrochemical companies that impact policy making processes relevant for land degradation & soil health?	15
Saydou	Comment prendre efficacement en compte la dimension foncière dans les action gdt ?	0
Saydou	Le problème de la sécurité foncière n'est pas l'existence de lois. Le problème c'est comment lever les principaux défis dans l'application des ces lois?	0
anonymous	And where would such land come from especially in countries where the dominant tenure regime is freehold	0
Haggai Oduori	Isn't individual land ownership one of the obstacles to sustainable land management?	1
Marion	Message tres important du Benin sur le travail necessaire sur la dichotomie des systemes de foncier et l'inclusion social	1
Haggai Oduori	Land is just a factor of production, why do we assume that rights to land will incentivize investments into SLM?	1
anonymous	Do we as researchers have the mechanisms to enforce findings related to land rights?	1
YOD	Comment pensez vous qu'il.faut agir pour assurer une gouvernance foncière équitable ?	2
Mitiku Haile	What issues are addressed with respect to land rights, land tenure or property rights?	2
Joan Carling	How can we ensure policy cohesion on land rights and sustainable land management with targets for economic growth and industrialization?	2
Srinivasa Srigiri	There are successful cases of strengthening the capacities of poor in accessing the legal services for securing access to land. These need scaling up. Part 2	2

Téodyl		
Nkuintchua	Message 5: Build the bridge with all the other values of land, including cultural heritage (SDG 11.4) or economic value	2
Srinivasa Srigiri	Evidences prove that SLM technologies are not successful without mechanisms that guarantee equitable and secure access to soil and water resources.	3
Srinivasa Srigiri	Effectiveness of progressive legislations for secure land tenure depend on access of poor to legal services. Part 1	3
Saydou	La GDT commence par la sécurisation des droits fonciers des différentes catégories de producteurs.	3
Nkiruka		
Nnaemego - YL	How do we facilitate and ensure Access to Justice for small scale farmers are victims of land grabs or government take over?	4
anonymous	What is the meaning of increasing land investment? Even saying or stating "land governance" it is too close to support land grabbing!??	5
Pradip Dey	How we can influence a proper land tenure policy across globe?	7
Nkiruka		
Nnaemego - YL	How do we facilitate and ensure Access to Justice for small scale farmers are victims of land grabs or government take over?	15
KA	Most cities grew of agricultural communities, are growing on contested fertile lands. Segregating urban and food production is 20th C, time to turn the page.	0
Srinivasa Srigiri	Strategic planning of inevitable urbanization is crucial for SLM and even more important the livelihoods.	0
Sarah	With the diminishing land sizes we need to consider integrating urban and peri urban farming into SLM interventions and so far this had not been captured	1
Srinivasa Srigiri	Metropolitan governance is becoming more and more centralized as governments view cities as 'golden egg laying geese'. Villages in suburbs losing autonomy.	1
Lien De		
Brouckere, RRI	In the US, almost half (!!) of food ends in landfill or rots in the field.	0
anonymous	Reduce food waste during breaks, lunches and dinners. It contributes to protect soil and land and ... save life in poorer countries	1

Nkiruka		
Nnaemego - YL	Can Sustainable Consumption be promoted through proper Post-Harvest Handling? How?	2
anonymous	Let s starting reducing our consumption patterns starting from minimising food waste today in terms of coffee breaks, excessive lunches and dinners	2
Usharani	Wastage of food is common factor in all countries irrespective whether they are developed or developing	2
Nkiruka		
Nnaemego - YL	Can Sustainable Consumption be promoted through proper Post-Harvest Handling? How?	3
	It may be difficult to change consumption pattern	
Usharani	Can we avoid wastage to begin with?	3
anonymous	Missing: Link to SDG 10? Climate justice ? If farmers are "key agents" in protecting soils, why are they not being supported financially on a larger basis?!	0
anonymous	Fully agree with Mr Lall's view that farmers need to be compensated for providing ecosystem services societal services being provided by them	0
Pradip Dey	Social change and LDN -is there a relationship?	0
Pradip Dey	Is it possible to include LDN as a lifestyle issue?	1
Pradip Dey	Is there a gender issue associated with LDN?	1
Pradip Dey	How to mobilize corporate social responsibility towards achieving LDN?	1
Pradip Dey	Social change & LDN -issues and ways to achieve?	2
Samson Eshetu	How do we ensure learning and co-generation of knowledge in a multi stakeholder platform?	1
Usharani	Investments are important but the transperancy in Spending is also more import9	1

shadrack Mutavi	Investments by Governments is guided by policy frameworks. Investments in good and sound National and regional or county policy frameworks is also necessary.	1
Andries Bosma ISRIC	For the next GSW: invite funding agencies and investors for SLM projects. Perhaps the World Business Council on Sustainable Development could facilitate?	1
Conrad B.	Very-for-profit companies are now "selling" SLM as investment, targeting individual investors, leaving out the poor rural farming households!	2
Andries Bosma ISRIC	Regarding the need for investment: How to use the Green Climate Fund for large scale investment in SLM and carbonsequestration?	2
anonymous	Where the investment is to come from? Probably fostering national investments in soil and land management is the best option to push for	8
anonymous	Change in consumption pattern will also impact individuals and they will be forced to change their consumption pattern .will it not his freedom and human rights	0
anonymous	Les pays développés contribuent aussi à la spoliation des terres en Afrique. Il faut une coalition africaine contre ce phénomène	1
anonymous	How can the 'virtual land' concept be used to address global inequality?	2
Patrick	And SDG10?! Why do the richest 10% control 40% of global income. It's less about "changing" patterns in high-consuming countries & more about preventing GREED !	2
anonymous	Is it time for an 18th SDG on "eradicate extreme wealth"?	3
anonymous	So, are going to hear the word "CAPITALISM" before we go home, or will just go on like this? We want land justice, soil quality, less consumption....and profit?	3
anonymous	Concentration of Power.... are we mentioning and postponing the debate... like the elephant...	5
anonymous	When the elephant in the room was attacked the discussion turned out to another topic: consumption and "global market" don't have a name nor a face.	6
Steffen Schweizer YL	Changing consumption and production of high income countries can only happen in partnership with the low income countries - triangular and south south partners	7

anonymous	Why dont we make hidden (environmental and social) costs transparent so that ecological and fair food would be no longer reserved for a rich Lifestyle?	8
Ivonne Lobos Alva	Showing footprints by higher consuming countries can support the universality principle of 2030 Agenda. The SDGs apply to all countries!	10
SB	Changing consumption patterns is very values/culture based. Human/climate footprint labeling perhaps?	10
anonymous	Changing consumption patterns in Germany is NOT a problem of limited knowledge, its a lack of transferring it into action!	10
Anne	If changing production and consumption patterns is the goal. What are the key policy/regulatory measures to get us there?	12
Marianne Beisheim	Fair prices for food, also taking externalities in - we need to go beyond labeling, get price incentives for both consumers and producers right!	15
Ivonne Lobos Alva	Link between gender and soils is crucial! How do we put that into a policy message for the #HLPF?	5
anonymous	Est ce que les représentants des pays africains ne peuvent pas porter cette préoccupation à l'AU	1
Pradip Dey	Nutrient deficiency and adolescence issues - are they related?	0
Samson Eshetu	Learn, unlearn and re-learn	0
anonymous	So where do we begin?	1
Samson Eshetu	How do we enhance our M and E by using Theory of Change (ToC), Experience Capitalization and Outcome Mapping (OM) methods in addition to Log Framework?	1
Steffen Schweizer YL	How to include the consumers that buy cheap meat?	1
Jonas	Diversity + non-discrimination. But the latest elections in the West are showing the opposite, no? France as an exception	1

Pradip Dey	Is it possible to start a meeting point for plant human/animal doctors? Can GIZ take this responsibility?	1
Jes	5 msgs as levers to upscale SLM!	1
anonymous Ivonne Lobos	Anthropocene or Anthropobscene?	1
Alva	Marianne, from your experience, what does the #HLPF need to improve to increase inclusion?	1
Conrad B.	Any preliminary feedback from government representatives on the recommendations coming up? Potential for success?	2
Pradip Dey	SLD as a lifestyle- how to go about?	2
SB	HLPF Message #2 -- but how?	2
KA	How do GSW messages include rights of refugees crossing borders and IDPs to soil / land / water and simply dignified livelihoods?	2
anonymous	MANkind?	2
Haggai Oduori	The way extension is managed determines quality and accountability, could a change in management culture and re-organization of work processes help?	3
anonymous	How can we improve and fulfil the technical requirement of farmers through limited extension agents?	3
anonymous	Responsible land Governance?	3
Srinivasa Srigiri	We need to find a fertile ground for combining rights based approaches and ecosystem based approaches to sustain life on the planet.	3
Habtamu	How many countries have context proven extension/implementation sterategy of SLM ???	5
