

**Global
Soil Week
2019**

A Side-Event on Ecosystem-based Adaptation (EbA)

“Projects never fail, and projects never scale...”

Lessons from the Global Soil Week: How to improve donor-funded projects to create a more enabling environment for upscaling Ecosystem-based Adaptation?

Friday, May 31st, 2019 from 9:00am – 12:45pm
Cocoa Room, ICRAF Campus
Nairobi, Kenya

The Side-Event will highlight the **main findings** of the Global Soil Week (GSW) and **stimulate a new discussion on how to improve donor-funded projects to create a more enabling environment for upscaling EbA** to ensure long-term sustainability in EbA investments.

This project is organized as part of the International Climate Initiative (IKI) Climate -SDG Integration Project implemented in India & Guatemala.

Supported by:

Federal Ministry
for the Environment, Nature Conservation
and Nuclear Safety

based on a decision of the German Bundestag

With financial support from:

BMZ

Bundesministerium für
wirtschaftliche Zusammenarbeit
und Entwicklung

giz

Deutsche Gesellschaft
für Internationale
Zusammenarbeit (GIZ) GmbH

Project implementation (Guatemala):

Agenda
